14

15 **Section 1.** Section 15-70-502, MCA, is amended to read:

16 **"15-70-502. Purpose.** The purpose of this part is to establish schedules for the tax incentive for
17 the production of alcohol to be blended for gasohol and for the sale of gasohol and to provide for the
18 proper administration and enforcement of the tax incentive. The schedules for the tax incentive are
19 designed to stimulate the development of alcohol fuel production and the use of gasohol fuel in Montana
20 while limiting the cost to the state of the tax incentive to amounts that are reasonable in relation to the
21 highway revenue needs of Montana."

22

23 **Section 2.** Section 15-70-503, MCA, is amended to read:

24 **"15-70-503. Definitions.** As used in this part, the definitions in 15-70-201 and the following
25 definitions apply:

26 (1) "Alcohol distributor" means any person who, for the purpose of making gasohol, engages in
27 the business of producing alcohol for sale, use, or distribution.

28 (2) "Department" means the department of transportation.

29 (3) "Export" means to transport out of Montana from any point of origin within Montana by any
30 means other than in the fuel supply tank of a motor vehicle.

(4) "Fuel retailer" means a person who sells liquid petroleum gas or diesel fuel to members of the public for use in motor vehicles operating upon the public roads and highways of this state.

~~(4)~~(5) "Gasohol dealer" means any person who blends alcohol with gasoline to produce gasohol for sale, use, or distribution in this state."

Section 3. Section 15-70-522, MCA, is amended to read:

"15-70-522. Tax incentive for production of alcohol -- written plan required -- reservation of incentives -- rules. (1) (a) If the alcohol was produced in Montana from Montana agricultural products, including Montana wood or wood products, or if the alcohol was produced from non-Montana agricultural products when Montana products are not available, there is a tax incentive payable to alcohol distributors for distilling alcohol that:

(i) was blended with gasoline for sale as gasohol in Montana;

(ii) was exported from Montana and has been blended with gasoline for sale as gasohol; or

(iii) was used in the production of ethyl butyl ether for use in reformulated gasoline.

(b) Payment must be made by the department out of the amount collected under 15-70-204.

(2) Except as provided in subsections (3) and (4), the tax incentive on each gallon of alcohol distilled in accordance with subsection (1) is ~~30-25~~ 30 cents per gallon for each gallon that is 100% produced from Montana products, with the amount of the tax incentive per gallon reduced proportionately, based upon the amount of agricultural or wood products not produced in Montana that is used in the production of the alcohol, and beginning July 1, 2005, there is no tax incentive.

(3) Regardless of the alcohol tax incentive provided in subsection (2) and [section 4], the total payments made for the incentive under this ~~part~~ section and [section 4] may not exceed \$6 million in any consecutive 12-month period.

(4) An alcohol distributor may not receive tax incentive payments under subsection (2) that exceed \$3 million in any consecutive 12-month period.

(5) An alcohol distributor who begins production after July 1, 1991, may not receive tax incentive payments under subsection (2) unless the distributor has provided a written plan to the department of transportation at least 18 months before the distributor's anticipated collection of the tax incentives. The plan must contain the following information:

(a) the source or sources of financing for the acquisition of the plant, land, and equipment used

1 for the production of gasohol;

2 (b) the anticipated source of agricultural products used in the production of gasohol; and

3 (c) the anticipated time, quantity, and duration of production of gasohol.

4 (6) An alcohol distributor in production before July 1, 1991, is entitled to apply for the maximum
5 tax incentive payment allowed under subsection (4) without providing a written plan as required in
6 subsection (5).

7 (7) (a) Except as provided in subsection (7)(b), the department shall reserve, in the order that
8 written plans required under subsection (5) are received by the department, alcohol tax incentives based
9 on the anticipated time, quantity, and duration of production. Payment of the alcohol tax incentives must
10 be based on actual production.

11 (b) ~~No~~ Not later than 1 year after the written plan is received under subsection (5), the department
12 shall determine whether an alcohol distributor is complying with the written plan. The department may
13 reduce or cancel the reservation of the tax incentive provided in this subsection (7) if the department
14 determines that the alcohol distributor has not materially complied with the written plan.

15 (8) A new tax incentive payment may not be made if the total tax incentive established in
16 subsection (3) has been reserved or paid. If an alcohol tax incentive has been reduced or canceled, the
17 amount by which the tax incentive has been reduced or canceled is available for reservation as provided
18 in subsection (7)(a).

19 (9) The department shall prescribe rules necessary to carry out the provisions of this section."
20

21 NEW SECTION. Section 4. Tax incentive for fuel retailers to dispense gasohol -- rulemaking. (1)

22 (a) A fuel retailer that installs or modifies fuel pumps on its premises to dispense ~~gasohol~~ ETHANOL-BLENDED
23 FUEL to members of the public after December 31, 2001, is entitled to a tax incentive of 5 cents per gallon
24 for each gallon of gasohol sold to the public until the fuel retailer receives an amount back from the tax
25 incentive that is ~~equal to 200% of~~ THE LESSER OF \$500 OR the fuel retailer's cost of installing or modifying
26 fuel pumps to dispense ~~gasohol~~ ETHANOL-BLENDED FUEL.

27 (b) A fuel retailer may not receive tax incentive payments under this section unless the fuel retailer
28 submits proof to the department of the cost of installing or modifying fuel pumps for dispensing ~~gasohol~~
29 ETHANOL-BLENDED FUEL and proof of the number of gallons of gasohol sold for which tax incentive payments
30 are claimed.

(2) A fuel retailer may receive the tax incentive payment provided for in subsection (1) even if the gasohol sold by the fuel retailer is not produced in Montana using Montana agricultural products, including Montana wood or wood products, when gasohol produced in Montana using Montana agricultural products is not available. However, a fuel retailer shall sell gasohol produced in Montana using Montana agricultural products to the extent that it is available.

6 (3) The department shall adopt rules necessary to carry out the provisions of this section.

8 NEW SECTION. **Section 5. Codification instruction.** [Section 4] is intended to be codified as an
9 integral part of Title 15, chapter 70, part 5, and the provisions of Title 15, chapter 70, part 5, apply to
10 [section 4].

12 NEW SECTION. **Section 6. Three-fifths vote required.** Because [section 4] diverts money from
13 the gasoline license tax, Article VIII, section 6, of the Montana constitution requires a vote of three-fifths
14 of the members of each house of the legislature for passage.
